

## **Helicopter / Multi Rotor**

**Its important that you are “flying” the model and in complete control at all times**

☐

I understand the flying times and areas allowed for the type of model I am flying.

☐

My model meets the BMFA Failsafe rules and I can demonstrate it.

☐

My model meets the MGMFC Noise Requirements - 80dB @ 7m (where applicable).

☐

I have demonstrated safe handing of my model before proceeding to fly.

☐

Position 10ft ~ 3m from the fence line, take off and hover for 10 secs.

Fly forwards 5m - hold and hover.

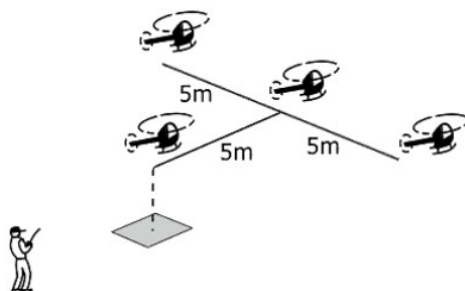

Fly left for 5m - hold and hover.

Fly right for 10m - hold and hover.

Fly left for 5m - hold and hover.

Fly backwards 5m to the original starting point - hold and hover.

Land safely on the original take off point.

☐

I have demonstrated safe handing of my model after this flight.

☐

I have a plan for any eventualities that may occur with my model.

Witnessed as Safe & Competent to operate the model as demonstrated to the below committee members.
