| Colour	Black
Material	Iron, Plastic
Brand	CROWNSHOP
Item weight	1.9 Kilograms
Finish type	Painted

15mm copper pipe or plastic pipe could also be used.

Bend the pipe to the shape using a pipe bender for copper or some 45 degree solvent weld elbows for plastic pipe. *(The bars that come with the stand could also be used and have vertical uprights attached each end.)*

Drill a hole of a suitable size in the centre of the copper pipe to allow the fixing bolt that came with the stand to pass through and screw into the stand.

Slide some 15mm pipe insulation over the pipe, cut to size and bolt it to the stand.

Cut the insulation out where it meets the stand to allow for a secure fixing.
